PROFESSIONAL SUMMARY

Full-Stack Software Engineer with hands-on experience building and maintaining web applications, REST APIs, authentication systems, dashboards, and database-driven platforms using React, Next.js, Node.js, Express, MongoDB, MySQL, and Prisma. Experienced in integrating frontend and backend systems, developing scalable features, troubleshooting production issues, and collaborating with cross-functional teams. Strong foundation in API development, system integrations, responsive UI development, and modern software engineering practices.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization, Next.js

Databases: MongoDB, MySQL, Prisma ORM

Tools: Git, GitHub, VS Code, Linux, Postman

Practices: API Integration, Responsive Design, Debugging, Agile Collaboration, Version Control

PROFESSIONAL EXPERIENCE

Web Developer – Amaris Solution | Dec 2025 – July 2026

- Managed and maintained company web platforms, ensuring consistent availability and reliable day-to-day operation.
- Implemented website enhancements, content updates, and responsive improvements, contributing to a more accessible and user-friendly experience across desktop and mobile devices.
- Troubleshooting website and plugin issues, improving platform reliability and reducing recurring technical issues by 90%.
- Optimized website performance, backups, and maintenance processes to support smoother and more reliable platform operation by 60%.
- Collaborated with stakeholders to implement business requirements and improve usability by 40%.

Full-Stack Developer Intern – Melta Point | Apr 2025 – Aug 2025

- Developed full-stack web applications using React.js, TypeScript, Node.js, Express, and MongoDB, delivering functional frontend and backend features.
- Built RESTful APIs and integrated frontend applications with backend services, enabling reliable data exchange across the application.
- Implemented secure authentication and role-based access control, improving application security and controlled access to system features.
- Developed administrative dashboards and data management modules, enabling more efficient management and monitoring of application data.
- Optimized application performance, scalability, and mobile responsiveness to provide a more consistent user experience across devices.
- Collaborated with designers and stakeholders to deliver user-focused solutions, contributing to a 35% improvement in company visibility.

IT Support Intern – Nairobi City Hall | Oct 2024 – Nov 2024

- Provided technical support, troubleshooting, and system maintenance, helping maintain operational continuity for users.
- Assisted with network setup, device configuration, and infrastructure support, improving connectivity and access to required systems.
- Performed routine system maintenance and troubleshooting, helping reduce recurring technical issues by 80%.

PROJECTS

[Agri Tracker](#)

- Built a full-stack platform for tracking farm income, expenses, inventory, and poultry sales.
- Implemented reports analysis.

[E-commerce Web Portfolio](#)

- Built an e-commerce platform for customers to view available products.
- Implemented cart functionality.

[My Blog Post](#)

- Developed a blog application with authentication, category management, and CRUD operations.

Budget Tracking Application

- Built a personal finance platform for tracking income and expenses with reporting features.

EDUCATION

Diploma in Information Communication Technology – Thika Technical Training Institute

CERTIFICATIONS

- Certificate in Software Engineering – Power Learn Project
- Certificate in Cyber Security – ScratchGScript Ignite Program
