PROFESSIONAL SUMMARY

Full-Stack Software Engineer with hands-on experience building and maintaining web applications, REST APIs, authentication systems, dashboards, and database-driven platforms using React, Next.js, Node.js, Express, MongoDB, MySQL, and Prisma. Experienced in integrating frontend and backend systems, developing scalable features, troubleshooting production issues, and collaborating with cross-functional teams. Strong foundation in API development, system integrations, responsive UI development, and modern software engineering practices.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs, Authentication & Authorization

Databases: MongoDB, MySQL, Prisma ORM

Tools: Git, GitHub, VS Code, Linux, Postman

Practices: API Integration, Responsive Design, Debugging, Agile Collaboration, Version Control

PROFESSIONAL EXPERIENCE

Web Developer Intern – Amaris Solution (Jan 2026 – May 2026)

- Managed and maintained company web platforms.
- Implemented website enhancements, content updates, and responsive user experiences.
- Performed troubleshooting, performance optimization, backups, and system maintenance.
- Collaborated with stakeholders to implement business requirements and improve usability.

Full-Stack Developer Intern – Melta Point (Apr 2025 – Aug 2025)

- Developed full-stack web applications using React.js, TypeScript, Node.js, Express, and MongoDB.
- Built RESTful APIs and integrated frontend applications with backend services.
- Implemented secure authentication and role-based access control.
- Developed administrative dashboards and data management modules.
- Optimized application performance, scalability, and mobile responsiveness.
- Collaborated with designers and stakeholders to deliver user-focused solutions.

IT Support Intern – Nairobi City Hall (Oct 2024 – Nov 2024)

- Provided technical support, troubleshooting, and system maintenance.
- Assisted with network setup, device configuration, and infrastructure support.

PROJECTS

Farm-Flux website

- Built a full-stack platform for tracking farm income, expenses, inventory, and poultry sales.
- Implemented reports analysis

E-commerce-Web-Portfolio

- Built an e-commerce for customers to view the available products
- Implemented a car functionality

blogpost

- Developed a blog application with authentication, category management, and CRUD operations.

Budget Tracking Application

- Built a personal finance platform for tracking income and expenses with reporting features.

EDUCATION

Diploma in Information Communication Technology – Thika Technical Training Institute

CERTIFICATIONS

Certificate in Software Engineering – Power Learn Project

Certificate in Cyber Security – ScratchGScript Ignite Program
